

**FOR IMMEDIATE RELEASE**

## **Taking Turf Renovation Jobs Two at a Time**

### ***Ryan Mataway – Overseeder & Vertical Slicer/Dethatcher***

The Ryan Mataway gives new meaning to the word 'versatile'. Heavy-duty snap-out reels let you easily change the blade and spacing required for the task and turf conditions. As an overseeder, curved discs deliver the seed to the grooves cut by the reel knives (raising the reel automatically stops seed flow to eliminate spillage during use). The Mataway Overseeder can be adjusted to provide proper seed flow.

The Ryan Mataway is also available without the overseeder attachment as a Mataway model for heavy-duty turf renovation and dethatching. The Mataway Dethatcher uses the same reels and works the same way for specialty turf renovation needs without the overseeding. Owning a Ryan Mataway is like owning a commercial vertical slicer/dethatcher and overseeder in one unit.

*The Ryan Mataway has the ability to dethatch and overseed – tackling two turf renovation jobs with one machine.*
