

The First Name in Turf Renovation™

LAWNAIRE® 28

The revolutionary Lawnaire® 28 offers the cutting-edge technology and precision needed in the golf course industry, and combines it with the durability and efficiency necessary for commercial lawn maintenance.

With vertical coring action, the reciprocating tines are able to punch straight in and out without tearing the turf. And with this machine, precision goes hand in hand with efficiency. Its 28-inch swath and productive ground speed aerates up to 24,000 square feet per hour. The durable tines aerate down to two and one-half inches, even in hard soil. The durable construction features a reinforced, heavy-gauge steel frame. As for ease of use and comfort, a front caster wheel gives you near zero-turn capability and an isolated handlebar absorbs vibration, making operation and maneuvering almost effortless.

SPECIFICATIONS

POWER

Engine Model 4-cycle, Honda® GX200™; recoil start; on/off switch; low-oil alert

Displacement 12 cu in. (196 cc)

Fuel Capacity 0.82 gal. (3.1 L)

Oil Capacity 0.63 qt (0.6 L)

UNIT

Machine Type Reciprocating self-propelled walk behind aerator

Clutch Belt tightener

Drive: Wheel A-section V-belt, #40 nickel plated roller chain

Drive: Tines B-section V-belt, #50 nickel plated roller chain

Tines Hollow, tapered, hardened alloy steel; 3/4 in. (19 mm) diameter tines

Tine Arms 4 arms; 2 tines per arm

Tine Engagement Mechanism Spring-assist

Lubrication 5 grease fitting

Reversing Gearbox Oil bath

Differential Grease

Coring Depth Up to 2.5 in. (64 mm)

Core Diameter 0.75 in. (19 mm)

Aeration Pattern 3.5 in. x 5 in. (89 mm x 127 mm)

Aerating Width 28 in. (711 mm)

Holes per Sq Ft (Single Pass) Up to 12 per sq ft (129/m²)

Productivity Aerates up to 24,000 sq ft/hr (2,230 m²/hr)

Transport 2.1 mph (3.4 km/h)

Brakes Automatic parking brake

Handles Rubber isolated handlebars

Bearings Sealed precision bearings

Tire: Front 4.10/3.50 x 4, 4-ply

Tires: Rear 2.80/2.50 x 4, 4-ply

DIMENSIONS

Weight: Wet 411 lb (186 kg)

Width 34 in. (864 mm)

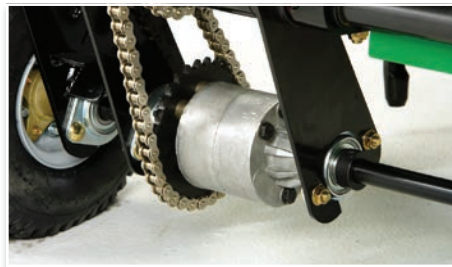

Length 56 in. (1,422 mm)

Height 48 in. (1,219 mm)

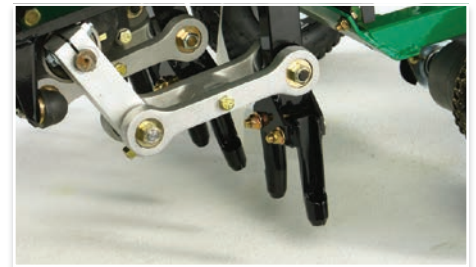

Specifications subject to change without notice.

A unique front caster wheel allows the machine to maneuver with near zero-turn capability.

The rear-drive differential feature makes it easier to turn and maneuver around trees and landscape features.

Reciprocating tines provide vertical coring action, punching straight in and out without tearing the turf, offering quality on par with golf courses.
