

TRACAIRE® TOW-BEHIND AERATOR

TRUST RYAN®

Your go-to when aerating large, high-traffic fields with heavy compaction, the Tracaire maximizes productivity by aerating up to 3 acres an hour—making the biggest jobs feel like a walk in the park. Equipped with resilient, alloy-steel tines for aerating the most challenging surfaces, nothing stands between the Tracaire and healthier turf.

1. CAST-IRON TINE WHEELS WITH SINTERED BUSHINGS

Avoid productivity-killing downtime with cast-iron tine wheels that feature sintered bushings and lubrication fittings for added durability and reduced maintenance.

2. VERSATILE AERATION OPTIONS

Choose from 3/4 in. or 1/2 in. thick wall coring tines, 3/4 in. thick wall spooning tines, or shallow and deep slicing knives—all made from austemper-hardened steel and build to penetrate to a depth of four inches.
